ROSHNA N

Python Full Stack Developer | Python FastAPI React AWS
Kochi - Trivandrum | roshnasharaf123@gmail.com | 9946491117

SUMMARY

Python Full Stack Developer with 2+ years of experience developing and supporting full-stack web applications using Python, FastAPI, JavaScript, TypeScript, React.js, Node.js, Express.js, and REST APIs. Experienced in backend/API integration, database workflows, AWS services including S3 and Lambda, Docker, CI/CD and deployment workflows. Skilled in debugging production issues, performance optimization, and collaborating across teams throughout the software development lifecycle. Also experienced in integrating LLM-powered features and RAG workflows into web applications.

SKILLS

- Languages: Python, JavaScript (ES6+), TypeScript
- Backend & APIs: FastAPI, Node.js, Express.js, REST API development and integration, third-party integrations
- Frontend: React.js, TypeScript, JavaScript (ES6+), reusable UI components
- AWS & DevOps: AWS Lambda, S3, EC2, Docker, CI/CD, deployment workflows
- Databases: PostgreSQL, MySQL, MongoDB
- Engineering Practices: SDLC, debugging, troubleshooting, API testing, performance optimization, code quality, Git
- AI Application Development: LLM integration, RAG pipelines, AI chat applications, multi-agent systems, prompt engineering
- Tools: GitHub, Postman, CLI/Terminal, ChatGPT, Claude, AI-assisted development

EXPERIENCE

SwarmLens Inc - UI Developer | Jan 2026 - Present

- Integrated FastAPI REST APIs, LLM services, and RAG workflows into AI chat interfaces and risk-analysis experiences.
- Built React and TypeScript features and reusable components for an AI-powered risk intelligence platform.
- Resolved application defects, investigated API/UI issues, and improved performance and usability.
- Partnered with cross-functional teams to deliver maintainable features and ongoing application improvements.
- Managed agent data for the AI-powered risk intelligence platform.
- Applied ChatGPT, Claude, and AI-assisted development tools to coding, debugging, and refactoring.

Faircode Technologies - Full Stack MERN Developer | Mar 2024 - Jan 2026

- Developed full-stack applications using JavaScript, React.js, Node.js, Express.js, and MongoDB.
- Led backend development of the Sharon Pipes Reward Program.
- Built and integrated REST APIs, database workflows, reusable UI components, and third-party services including Cashfree.
- Optimized performance and memory usage while investigating application issues.
- Deployed with AWS services, Docker, Git, and CI/CD workflows.
- Integrated OCR and AI-based automation using AWS services.

PROJECTS

AI-Powered Risk Intelligence Platform

- Built React-based interfaces and AI chat functionality using Generative AI, RAG, and LLM workflows.
- Integrated APIs and AI services to provide contextual risk insights and recommendations.

Sharon Pipes Reward Program (Backend Lead)

- Developed a React-based rewards application with API, database and third-party integration, including Cashfree.
- Implemented reward and membership workflows and AWS-based OCR receipt scanning; supported debugging and feature improvements.

EDUCATION

M.Sc. in Data Science - University of Kerala | 2021 | 86%

B.Sc. in Computer Science - Govt. College Kariavattom | 2016 | 71%
